Sungho Seo, Dongho Son, Jaesung Lee, Chanyoung Park, Gwanggyu Choi

Scribe

Jaesung Lee

Agenda

Old Business

- How to use Fin Tech System.
- Is our Idea proper size to develop.
- Buy any other devices.
- Cafeteria prepayment system
- Library reservation management system
- Hotel management system

New Business

- Compare with other Meeting Minute
- Take up their roles
- Compares the 3 Topics.
- Select One Main Topic among 3 topics.

Old Business

-
- **How to use Fin Tech System.** It is OK to use virtual Fin Tech System instead of real one. But, Professor thought developing payment system can difficult because it needs high skills.
 - **Is our Idea proper size to develop.** Cafeteria Pre-pay system is not Clearly Predictable. We don't have experiences on developing NFC system. but, Other Two topic is good to be selected. Web & Android App developing is easy to develop because our team has many experience about them. And project size is proper.
 - **Buy any other devices.** we should ask Pf.Kim to buy any other devices needed to develop.
 - **cafeteria prepayment system.** The now cafeteria payment system is caused by hard congestion at lunch peak time .so up for the present system's weak points to rid congestion using the technology of NFC and Pin-Tech
 - **library reservation management system.** The extra work that there is not a lot of optimization to create a new program to complement the disadvantages of the current program.
 - **hotel management system.** The extra work that there is not a lot of optimization to create a new program to complement the disadvantages of the current program.

New Business

- **Compare with other Meeting Minute.** We had a discussion about the our Meeting Minute, and We have comprehensive documents.
- **Take up their roles.** During the first three weeks, Sungho Seo is a PM, Jaesung Lee is a Scribe, Dongho Son and Chanyoung Park are customers, Gwanggyu Choia is a Programmer.
- **Compares the 3 Topics.** Pf.Kim was say "NFC's price is too high. So, It is not able to support.", library reservation management system is too boring topic. so we tried to choose hotel management, but we have never experienced of hotel management. So, we determined in a similar system.
- **Select One Main Topic among 3 topics.** we chose cafe management system. because, cafe management system is similar to hotel management system. and, we usually go to the cafe. So, we can better perform the customer's role.

Next Meeting
