Old Business

- **Study for SRS examples** We Studied for the ways to write SRS document to understand Why each SRS document part is needed and how to write each part.

- **Distribute SRS documents to each teammates** By Next meeting, Each member should write their part. Project perspective - Sungho Seo / Product functions, Functional requirements - Chanyoung Park, Gwanggyu Choi / Software system attributes - Jaesung Lee

New Business

- **Merge each parts of SRS documentation** Each member explains their SRS documentation part. Jaesung Lee merged them.

- **Review and edit merged documents** It was very hard to ensure what we wrote makes sense in each part. There was a lot of differences between many samples of SRS document. We send a mail to prof. Scott. We decided to observe IEEE standards.
